

STONY PLAIN SUN.

VOLUME EIGHT.

STONY PLAIN, ALBERTA, THURSDAY, OCT. 20, 1927.

Whole Number 376

Wheat Pool News Notes.

Important changes have recently been made in the staff of the Central selling Agency, which disposes of all the grain of Saskatchewan, Manitoba, Alberta and Ontario Wheat pools.

An office has been opened in London, Eng., and D. I. Smith, formerly general sales manager, has been put in charge of this important post.

Geo McIvor has been appointed general sales manager

with headquarters at Winnipeg.

D McIntyre, assistant sales manager at Winnipeg, has been appointed eastern sales manager. O Z Buchanan, who has been in charge of the Vancouver office of the Pool, will be western sales manager, located at Calgary, succeeding Mr McIvor.

W C Follitt, assistant sales manager, has been appointed coarse grains sales manager.

Jas Gibson, of the Pool's Calgary office, has been appointed manager of the Vancouver office in succession to Mr Buchanan.

Mr McIvor, who undertakes the great responsibility of the selling of the immense volume of Pool grain, was born at Portage la Prairie and entered the grain trade in 1912 with McLaughlin Grain Co., Winnipeg.

O Z Buchanan was born in Ontario and was in the employ of the U. G. G. for many years.

Jas Gibson, the new manager at Vancouver, was born at Kenora, Ont., and entered in the grain business in Winnipeg.

The Central Selling Agency handled 185 million bu wheat in 1925, besides the sale of coarse grains.

Since the Pool was formed the agency has handled 450,000,000 bu. wheat and fifty million bushels coarse grains.

The Calgary office handles all western shipments and 25,500,000 bu. of the 1926 crop have been shipped west.

LOCAL NEWS.

Karl Krebes, of Fort Saskatchewan, was a Sunday visitor with Mr G Heichen.

Mr W E Gellhouse has rented the brick building on Main street formerly occupied by the Bank of Montreal, and will shortly move to it with his family.

Mr Kelly motored to Barrhead on Sunday.

Mrs Litke was taken to Edmonton on Monday, for treatment.

Mr Frank Askin made a motor trip to Ponoka on Sunday, on a visit to friends.

The afternoon tea and sale of home cooking held Saturday at the United Church was well patronised.

At the local Court on Friday, Edward Moritz, farmer, of Clymont, was fined \$20 and costs for assault.

Josef Engleman, who arrived last spring from Szechow-Slovakia, and has worked for Messrs J Litzenberger and O Seehugel, will hear of something to his advantage by sending his present address to The Sun Office.

While driving to his home at Golden Spike with his team on Monday evening last about 8.30, Mr Gehlert was run into by an auto driven by Dan Turlock of Blueberry. The accident took place near St. Matthew's Schoolhouse No. 1. Mr Turlock, who was accompanied by his brother Aleck, had been working on a threshing outfit all day and was proceeding to his home at Blueberry. The car's lighting system was on the blink, so Dan had attached a stable lantern up in the fore peak. The starboard horse had its harness knocked off, with other damages to the rigging. In Court the next morning Dan was fined for an infraction of the Vehicles & H. T. Act. It is possible a suit for damages will follow.

A meeting of the directors and shareholders of the local skating club was held Friday evening at the Royal Hotel, with Mr John Miller in the chair. Mr Michael and Mr Yeats were elected Pres. and Vice-Pres. respectively. The present arrangements for the lease of the rink were continued for another year. A committee was appointed to look after the interest of hockey players, as a big season is looked forward to in this line.

Found, auto. number plate. Apply Sun Office.

Another Church for Stony

The Catholic congregation in Stony Plain have purchased a site on which to erect a church. The new location is on Second street, and are the five lots east just east of Mr Wurtz's smithy. Plans are under way for the building of the edifice at the earliest opportunity.

Automobile Accidents

During the Great War the statement was frequently made that human life appeared to be the cheapest of all commodities. Judging by reports appearing in the press daily of the continuing and steadily mounting toll of lives lost as the result of automobile accidents the old war-time statement would almost appear to be true today.

Deaths from automobile accidents as reported in vital statistics and by insurance companies now measure up in their totals to the figures credited to many of our more serious diseases. To these fatalities must be added the very large number of persons crippled and maimed for life as result of such accidents. The record is not one that reflects much credit upon our vaunted twentieth century civilization.

Responsibility for only a very few of these fatal accidents can be laid at the door of defective construction of automobiles. Car construction has reached a high state of efficiency and great care is exercised by all manufacturers in the quality of materials used and in the excellence of workmanship in construction.

The vast majority of all automobile accidents are the direct result of foolhardy recklessness on the part of drivers of cars, or open disregard by them of the rights of other drivers and lack of respect for the laws and rules of the road.

Many drivers either fail to realize, or deliberately ignore the fact, that an automobile is a high powered machine, capable, because of its power and speed, of doing incalculable damage. The greater the power and speed of the car, the greater the danger, and the greater the need for the exercise of common sense and caution. Too many drivers, however, because their car is capable of 50, 60, 70 or more miles per hour, feel impelled to drive it at that rate, quite ignoring the fact that a speed of which the car may be capable, and which may be comparatively safe on a clear, well-paved highway, is highly dangerous driving on the average earth road of Western Canada.

Then there is the road fool who because his car has the power, is afflicted with the insane mania of always striving to pass every other car and who seems to labor under the delusion that it is an insult to allow any car to pass him.

Again, there is the type, and a numerous type it is, which refuses to observe the automobile laws and rules of the road, takes the right-of-way from others entitled to it, and selfishly dashes along regardless of everybody else, and without giving the slightest consideration to the fact that, while he may get safely through, he may bring disaster upon less experienced or more nervously inclined drivers. Many, probably most, drivers give way and relinquish their rights to these roadbugs rather than invite an accident. But the roadbug can never be sure of this and an accident is the result.

Finally, there is the driver who rather than slow down and possibly wait a few seconds in safety at a railway crossing, or a dangerous curve in the road, speeds ahead. Many have saved a second or two only to be maimed for life or meet their death.

Legislators, road builders, car manufacturers, all are striving to devise ways and means of diminishing causes of accident. Roads are being built wider, with easier curves, less pitch to them, less pronounced ditches at the side, with guard rails at danger spots, warning signs, and a multitude of other devices. Legislators and others are seeking to evolve practical headlight and other traffic regulations. Manufacturers are exercising their ingenuity in the improvement of brakes and safety appliances. Still the death toll mounts higher and higher.

Why? There is only one answer. Because of a desire to boast of the performance of their car to achieve a momentary thrill, to travel at a totally unnecessary speed, in a word, to outdo somebody as foolish and reckless as themselves, people will hazard life and limb, not only their own but everybody's. Law officers are doing their best to protect a long suffering public, but they can only punish the offender; they cannot prevent the accident. Only an aroused public opinion, and a wider acceptance by all of the duties of responsible citizenship can remedy the evil and the loss to which attention is drawn.

Too many people know a lot of things that are none of their business.

People who borrow trouble are always anxious to turn it over to others.

When a man gets a chance to dispose of his troubles, he always heaps up the measure.

It's difficult for a man to collect himself when his wits are scattered.

Safe Accept only "Bayer" package which contains proven directions. Beware of "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark registered in Canada of Bayer Manufacturers of Monopolistic products of Germany. It is the only name that appears on the Bayer Aspirin tablets. The name of Bayer Company will be stamped with their special trade mark, the "Bayer Cross."

Planning Safety Airplane

New Idea Of North Carolina Man May Eliminate Hazards

Proposing the development of a monoplane with wings and fuselage carrying sufficient helium to make the craft lighter than air, Edward Stimmington, a cigar maker, believes he may make flying as safe as motor-ing by eliminating nose dives, tail spins and other aviation hazards.

Stimmington has designed a model of an all-metal plane with a wing spread of 80 feet and a length of 100 feet. The wings are rounded and 15 feet in width.

Motors and passenger cabin are slung below the fuselage, a feature which the inventor believes will give the craft an equilibrium by which it will right itself when swerved from its balance.

Paint a Corn With This Marvel Liquid

The pain stops in a few seconds. Tight shoes don't hurt any more. The corn shrivels up, and drops off. It removes the whole corn and doesn't pain a bit. It's the sure remedy—Putnam's Corn Extractor. All you need is Putnam's Corn Extractor. Get your bottle today. Refuse a substitute for Putnam's.

No Forest Fires In Manitoba

There have been no forest fires in Manitoba this season, and now as the dry season is at hand the air patrol will be doubly vigilant to keep the record unbroken. Woodsmen and campers have co-operated with the Dominion and Provincial Governments to eliminate the causes of fires, the patrol officials say. Planes will be kept on duty until late in October.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand. Promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels, soothe the stomach, banish constipation and indigestion, break up colds and simple fevers—in fact they relieve all minor ills of little ones. Concerning Mrs. Mose Cabotto, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting but the Tablets soon set her right, and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co. Brockville, Ont.

B.C. Horses For Russia

Negotiations are proceeding through the Canadian Government for the sale of about a thousand more British Columbia horses by this province to the Soviet Government. The sale will be founded up in the interior and routed via Montreal.

Women and Asthma. Women are numbered among sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Select Factory Sites

Large British Corporations Will Branch Out In Business In Canada.

Six factory sites have been selected in Canada for the joint venture of British industries and further British development will follow the work of Theo. Feldon, of London, England, direct or general of the Empire Trade League and editor-in-chief of the Empire Mail. On his arrival in Winnipeg Mr. Feldon stated that he had been commissioned by the Empire Trade League to look for sites for large corporations in England and had so far found six that were satisfactory.

Ship Produce To New Zealand. The first movement of British Columbia vegetables and fruit this season to New Zealand has begun with the shipment of 7,000 sacks of onions and 4,500 boxes of apples to the Island Dominion.

French Excursionists

"La Survivance Française" Excursion To Eastern Canada

French excursionists travelling to Eastern Canada under the auspices of "La Survivance Française" will leave Winnipeg at 3:00 p.m. December 17th by special train over Canadian Pacific Lines. This train will carry all steel motor electric lighted observation, dining, standard and tourist sleeping cars and day coaches.

Special arrangements have been made to visit important religious and commercial centres in Eastern Canada, where receptions will be given. These include: Ottawa, Montreal, Shawinigan Falls, Quebec, Ste. Anne de Beaupre, Sherbrooke and other historic places.

Charles Marchand, the famous folk singer and entertainer, will accompany the special train from Winnipeg and a real treat is in store for the excursionists.

A leaflet printed in French giving full particulars is now available and may be had on application to any Ticket Agent of the Canadian Pacific.

International Grain Show

Saskatchewan Exhibitor Sends First Entry Of Marquis Wheat

James A. Paup, of Langham, Saskatchewan, has the honor of sending in the first entry for the International Grain and Hay Show, which will be held in Chicago, November 16 to December 3rd. He will exhibit a sample of Marquis wheat in the hard red spring class. In this class last year 16 of the 30 prizes were awarded to Canadian entries and the top sample, shown by Hermann Treile, Wembley, Alberta, was later made grand champion of the show. Five additional prizes are being offered in this class at the International, and entries close November 10.

The shortest war was that declared by the Sultan of Zanzibar against Great Britain in 1893. It lasted 40 minutes.

A Motorist's Prayer

Teach us to drive through life without skidding into other people's business. Preserve our brake linings that we may stop before we go too far. Help us to hear the knocks in our own motors and close our ears to the clashing of other people's gears. Keep alcohol in our radiators and out of our stomachs. Absolve us from the mania of trying to pass the other automobile on a narrow road. Open our eyes to the traffic signs and keep our foot on the brakes.

Will there be snow in England?

In Scotland the ponds freeze and they go skating at Christmas, but England often sees a green December. It would be a wonderful change for you to go home, and the comfortable crossing is alone a good holiday. Are you going?

The Anchor-Donaldson Steamer "Lettitia" leaves Montreal for Scotland on November 26th. The Cunarder "Ausonia" leaves Montreal for the Channel Ports on November 25th.

Special Christmas sailings from Halifax for the second week in December will enable you to arrive in plenty of time for plum puddings and haggis, bagpipes and pantomimes.

Round trip from \$155.00 up, everything included. Children half fare. Your Steamship Agent will make all arrangements.

Russia Attempts To Salvage Millions In Treasure From Sunken Ship In Balacava Bay

From the depths of Balacava Bay the other day there was brought to the surface a gold coin. It was the year 1821 and it bore the inscription of George IV. Here, many felt, was tangible evidence that the rotting bulk of the British cruiser Black Prince, sunk in the great storm that swept over the harbor when the Crimean War was in progress, still holds fast to the treasure of a half million pounds sterling. One more chapter was being added to the old, old tale of the quest for "drowned gold"—a quest which goes on all over the world. Sometimes lost treasure ships are not found; sometimes, if found, it proves impossible to bring up their cargoes.

It took two years of submarine search for the Soviet Government to discover the "timbers of the Black Prince." Within three months from the time of commencing work the Japanese company to which the contract for salvaging had been let brought up its first coin.

The treasure galleons of Spain that sank in the Caribbean, the strong rooms of the majestic East Indianmen that perished many years ago, the precious freight of many an ill-fated liner of modern times all have their seekers. Untold millions lie in the wrecks of ancient and modern ships. War syndicates after syndicates have been formed to find them and every appliance of the diver has been brought into play.

The Lusitania, victim of a German submarine, lies in 200 feet of water with \$5,000,000 in her hold; yet it is doubtful whether any attempt will be made to raise her for years to come. The working depth for divers, it is estimated, is limited to 500 feet at present, and some of the perils commences at 100 feet. Even a prize of \$5,000,000 might not be worth recovering in view of the expenditure entailed. The British Admiralty has already refused a number of offers from Germans desirous of raising the Lusitania, and was anxious to prove their contention that she carried ammunition and was therefore a vessel of war.

One of the greatest feats in the salvaging of sunken treasure was the recovery of \$35,000,000 from the Laurentic, which was torpedoed in 1917 and sank in ninety feet of water off the north coast of Ireland. Dredging proved too slow, and the crushing force of dynamite was applied to the plates of the wreck. Every coin in the strongroom was recovered by divers.

More than \$250,000,000 in bullion has, it is estimated, been recovered from the wrecks of treasure ships by French and English syndicates, which sell shares in the ventures to the public. The total of unrecovered treasure however, exceeds this sum many times over. The locations of many of these fortunes have been known for years, but the treachery of the sea and the impossibility of working beyond a certain limit have prevented salvage.

Prospectors Not Exempt

Cannot Shoot Game Out Of Season If Short Of Food

The general impression that prospectors running short of food are entitled to shoot game at any time has recently been heard of. Merritt, B.C., in which a Princeton man was convicted of killing a deer out of season. The man in question, pleaded that he and his partner were short of food, but the magistrate pointed out that the privilege of shooting game out of season was only accorded to prospectors in unorganized territory. According to the Act, "unorganized territory" consists of that portion of the Province of British Columbia north of the 53rd parallel which passes somewhere near Quenest. While refusing to accept a plea of ignorance of the law the magistrate reduced the fine to the minimum of \$25.

To Repair British Houses Of Parliament

Work Will Occupy Fifteen Years and Cost Six Million Dollars

It is estimated that the cost of repairing the Houses of Parliament, which is to begin the next few months, will amount to almost \$6,000,000, and that the work will occupy fifteen years. The figure is more than half the original cost of the buildings, and they took less time to build from Sir Charles Barry's plans than will now be spent in repairing them.

There is no question that the Houses are among the great buildings of the world, architecturally as well as in mere size, though Englishmen do not always recognize their merit. To go over them, above and below ground, and from end to end, is a good day's work.

There are something like 1,500 fireplaces in the two Houses, and the points of light run to very high figures, necessitating a large cashing staff always on the spot. It is mainly the exterior however, with which the public are concerned.

Wool Research Work

Will Study Wool Growing and Wool Manufacturing in Canada

Final practical plans for research work into wool growing and wool manufacturing in Canada, designed to help both farmers and the industry, were completed at a meeting held in Toronto of a special committee under the chairmanship of Dr. H. M. Torr, of Alberta, president.

Basic considerations and methods of examination of Canadian grown wools were outlined in a report from Prof. J. P. Sackville, University of Alberta, with special reference to wools produced in the west. A. A. McMillan, department of agriculture, Ottawa, impressed the meeting with the importance of the sire in raising efficient flocks.

Prof. Wade Toole, Ontario Agricultural College, was also of the opinion that the ram was the most important study, and that Shropshire rams imported from England had ruined many flocks in Canada, and other flocks had been ruined by imported rams of other breeds. He considered that Canadian farmers could and should breed their own rams instead of importing them. Mr. Tisdale, an official of the Canadian Co-operative Wool Growers' Association, upheld Mr. Toole, declaring that Oxford rams imported from England had ruined flocks in western Canada.

Spirit Of Adventure

Dominant In The Youth Of Twenty Years Ago, But Is Less Now

A lessening of the spirit of adventure, coupled with a tendency to incline support toward agencies which exist for that purpose, may be important factors in the diminution of emigration from Great Britain. This suggestion is advanced by J. Bruce Walker, director of European immigration for the Canadian department of immigration and colonization. This spirit of adventure and optimism, said Mr. Bruce Walker, in an interview at Ottawa, was dominant in the youth of twenty years ago, but, through either social or political reasons—or a combination of both—there is now, he said, too great a disposition to look to others for aid in doing what should be done by oneself.

MacDonald—I dinna ken why Sandy laid over on his side when he saw the steam roller about to run over him. It was vera peculiar.

MacPherson—Awel, he wanted his pants pressed for the funeral, and he was afraid the creases would be the wrong way.

A book called "The Latest Dodge" has just been published. Pedestrians should get some valuable hints from this volume.

The Bank Fish Hatchery where the albinos are raised. (Inset) The unusual trout in question.

A FISHY ALBINO STORY

This story proves the saying, "Truth is stranger than fiction," and it is the truth, the whole truth, and nothing but the truth.

As the picture shows, it is a fish story, originating in Canada's most beautiful scenic spot, Banff. Albinos appear quite frequently among animals and humans, but among the placid tribes they are practically unknown that is to say, they were unknown until this summer. Now they have them at Banff, where all visiting there may see and believe.

These albino brown trout, an even fifty of them, are located at the government fish hatchery where they had a hatch of 118,000. Out of this 55 saw the light, as you might say. Later another five died while quite young.

Interesting Sidelight Is Thrown On History of the North-West And Upon Early Indian Customs

Electric Lights For Laying Hens

More Eggs Are Obtained During the Winter Months

In order to find out what effect electric lighting has on egg production and the general development of hens, a test has been carried on during the last three years at the Kapuskasing Experimental Station in Northern Ontario. In each of the three years one hundred pullets were used in the experiment. They were equally divided as to weight, general development and breeding into two pens of fifty each. All conditions were similar except that one pen got no electric light while the other was lighted from four in the morning until daylight from November 1 to April 30.

The results of the experiment which are given in the latest report of the superintendent of the station, show that lights have a favorable effect on the number of eggs laid during the winter months, as the three year average showed an advantage of nearly 500 eggs for the pen with lights. At the same time over the whole year the pen with lights laid fewer eggs than the one without lights. The biggest advantage in the use of lights would appear to be in the fact that more eggs are obtained during the winter months when the price is high. The experiment also showed that lights have very little effect on the body weight of laying pullets during the winter months. They also have little effect on the amount of feed consumed, and therefore on the cost of feeding.

Fifty Miles Of Books

Library Of British Museum Started On Great Scale

The British Museum Library contains nearly 4,000,000 books, stored on fifty miles of shelves.

Before the opening of the present reading room in 1875, this gigantic storehouse of literature was consulted by only some half-dozen readers daily. They were accommodated in a small basement room, furnished with a few "cane-bottomed chairs and one half-covered table."

Readers now average between 600 and 700 daily. They sit at desks radiating like the spokes of a wheel from two concentric circles, in the inner of which sit the officials, while the printed catalogue comprising about 1,500 volumes is arranged round the outer circle.

How is it that in a country like Canada, where slavery has never been an institution, the word "slave" should, after all the names of prominent geographical features, such as, Great Slave Lake, Slave River, and Lesser Slave Lake?

A statement, furnished by the Geographic Board of Canada, throws an interesting light on the history of the North West and upon Indian customs. Indian place-names, it points out, may refer to physical characteristics of the place, to incidents in the history of the tribe, or to associations of a tribe with a region. Examples may be seen in Saskatchewan River (swift flowings), Battle River (place of numerous battles), and Ottawa River (river frequented by the Ottawa tribes). Another point is that Indian tribes generally had two names—the name they gave themselves, and the name given them by the whites and in many cases the names which have been used by the white man have been "eucy" names. This accounts for the very uncomplimentary names which some Indian tribes bear.

The record then proceeds to the effect that Great and Lesser Slave Lakes and Slave River were named from a tribe of Indians which, once dwelt in that region. These Indians called themselves Eshcherootties, which means "the people dwelling in the shelter of the (Rocky) Mountains." In contradistinction to other northern Indians who were caribou eaters and travelled widely in pursuit of game, the Eshcherootties were fish eaters and kept to the lakes.

When the more warlike Crees went on the war-path against the tribes on the Peace River they came from the south in canoes to Lesser Slave Lake, and leaving their canoes there, proceeded overland. It is, therefore, readily to be understood how war parties of Crees, finding that the lake-dwelling Indians did not possess their own warlike attributes and ideas, show their contempt by bestowing on the lake-dwellers the epithet "awakak" or "slaves."

An Excuse For Existence

Horse Pays Best On Short Hauls and Frequent Stops

In spite of the omnipresence of the automobile, the horse still has an economic excuse for existence. Wherever there are "short hauls" and frequent stops, it pays to use horse-drawn instead of gasoline. It costs 6 cents a minute to keep a big auto truck on the streets of New York, and only two cents a minute to use a two-horse team that will draw nearly the same weight of freight. The same companies of the same city have found that it costs \$102,000 has a year to deliver \$1,000,000 worth of milk in one-horse wagons than by automobile trucks. And with the continually increasing congestion of motor cars, Dobbin's economic advantage promises to increase rather than diminish—Youth's Companion.

Honored Dr. Best

Dr. Charles H. Best, co-worker of Dr. F. G. Banting in the discovery of insulin, was honored by Harvard at the opening of the new Harvard medical dormitory when the common room was officially named the Charles Herbert Best Room, in recognition of his work and as an inspiration to the students. Dr. Best attended the ceremonies which were presided over by President Lowell.

Backed by friends, of Col. P. H. Farwell, who vanished in the Brazilian jungle in 1925, an expedition headed by Commander George Miller Dyer will leave in a few weeks to search for the missing scientist.

Donald J. MacDougal of Balliol College, Oxford University, a former Canadian editor, who was blinded in the war, has been remarkably successful in his examinations and has taken a first in honors in modern history.

Exact reproduction of messages either in handwriting or typewritten, may some day become practicable. Col. Stanton Davis, counsel for the Radio Corporation of America, declared before a committee of the International Radio Telegraph Convention before which he urged great liberality in regulating government wireless.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

French Capital Invades Oil Fields
French capital will enter the Turn or Valley oil-fields, near Calgary, this year, through L. N. Thompson and S. H. Adams, agents for a Parisian financial firm. The two men are negotiating for 1,710 acres of oil leases for their principals.

What is Home With a Sick Mother?

Peterboro, Ont.—"Following motherhood I developed a trouble that pulled me completely down in health. My nerves were weak, I was nervous and physical wreck. But, after taking five bottles of Dr. Pierce's Favorite Prescription my nerves were in good condition and I fully regained my health and strength. I recommend the Favorite Prescription to all women who suffer as I did.—Mrs. Maurice Tobin, 100 Steward St.

All drugs. Tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package of the tablets.

W. N. U. 1709

Latest Achievement Of British Salvors

Towed Ex-German Warship Upside Down For Three Miles

The towing of a 23,000-ton warship upside down for three miles is the latest achievement of British salvors. The ex-German battle-cruiser *Moltke* was raised nearly three months ago from the floor of Scapa Flow, in the Orkneys, by Messrs. Cox and Danks. She lay on Cava Island, bottom up, and, as the air-pressure increased, she was removed. But in her exposed position work would be impossible during the winter gales, and it was decided to rebury her to Lymons. All holes were plugged and pumping began, and as the air-pressure increased and she became partly buoyant a floating dock was placed on each side. Then her last voyage began to Lymons Pier.

Iceland's Remarkable Feat

Swam Twelve Miles In Arctic Ocean With Temperature at 33 Degrees

Swimming the English channel is men play beside the feat of a young Icelandic, Erlingur Palsen, a constable of Reykjavik, who swam twelve miles in the Arctic Ocean with the water at a temperature of 22.8—barely above freezing point. He wore three bathing suits.

It is 900 years since this swim from the island of Drangoe, in the Skagaford, to the mainland has been accomplished and that was by the legendary outlaw, Greitir. Until Palsen swam the distance nobody believed the legend, for it was regarded as impossible for a human being to endure the freezing water for the four and a half hours necessary to cover the twelve miles.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

A Modish Coat

The woman who desires an unusually smart coat will find this a most graceful and becoming style. The shaped sections and long shawl collar give the much-deadened slenderizing lines, and the soft two-piece sleeves are finished with shaped cuffs. No. 1670 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 requires 4 1/2 yards 36-inch or 3 1/2 yards 44-inch material, and 4 1/2 yards 36-inch lining. Price 29 cents the pattern.

When an impassioned orator held out his arms and wailed pathetically: "Have any of you ever known hunger?" a girl in one of the front seats nearly broke up the lecture by audibly remarking: "Till I eat lunch today."

Minard's Liniment for Toothache.

When your tea doesn't taste right the chances are that it is put up in an inferior package. To be sure of getting tea of unvarying good quality, see that the package is fast, dust and damp-proof. In other words, make sure it is Red Rose Tea in the bright, clean, sanitary aluminum package—the finest container ever used for tea.

An Annual Event

Here is a story a Hiawatha, Kansas, young lady told on herself. It is the honest truth. She is still wearing a dress she wore when she was 12 years old. The material is so good that she doesn't want to throw the dress away, has no younger sister to give it to. Each year she says, in order to keep pace with the march of fashion, she takes up the dress at the hem. So it annually gets shorter.

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood

There can be no perfect digestion unless you have rich red blood. This is scientifically true. It is also true that there is no tonic for the stomach that is not at least partly a tonic for the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended.

There is no doubt that eating properly digested food. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach will soon pass away. Mr. Gordon Danks, Peterboro, Ont., tells as follows what this medicine did for him.

"Something over a year ago I was a gasoline salesman when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt miserable and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more as I had gained the weight I had lost, and felt well and could eat anything. I have since had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills.

You can get these Pills from any medicine dealer or by mail at 50 cts. per box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wheat Grown In Sub-Arctic

Farmers at Fort St. John, 200 miles north of Peace River, have asked the Alberta Wheat Pool to assist them in transporting 40,000 bushels of No. 1 Northern wheat to the coast. The wheat was grown practically in the sub-Arctic, 200 miles from a rail shipping point.

TORONTO WOMAN IS GRATEFUL

To Gin Pills For Relieving Pain and Listlessness

Household duties were burdensome; pain wracked her body; medical help accomplished nothing; doctors, and how often this happens! a friend advised Gin Pills. This former sufferer writes:

"For about one year I had trouble and a terrible listlessness feeling at all times. I was unable to do anything during this period but couldn't explain it."

"After using the last box of Gin Pills I felt relief. After taking three more boxes I am completely restored. I can keep Gin Pills in my medicine cabinet."

(Name on request)

Don't suffer needlessly agony! Don't lay yourself wide open to scourges like Rheumatism, Sciatica, Lumbago and acute Bladder ills, by neglecting your kidneys. Severe backache and dizzy spells are warnings. So are headaches, swollen joints, painful, scanty or too frequent urination. Safeguard yourself. Relieve pain quickly. Take Gin Pills. 50c a box. Sold by all druggists. National Drug & Chemical Company of Canada, Limited, Toronto, Canada.

SUNDAY SCHOOL LESSON

OCTOBER 23

THE CALL OF THE PROPHET

Golden Text: "And I heard the voice of the Lord, saying, Whom shall I send, and who will go for us?" (Isaiah 6:8).

Lesson: 1 Kings 19:19, 20; Amos 7:10-15; Isaiah 6:8.

Devotional Reading: Psalm 40:5-10.

Explanations and Comments

1. The Call of the Prophet Elijah, 1 Kings 19:19, 20.—Elijah was plowing with twelve pair of oxen before him, eleven pair guided by his servants while he himself guided the twelfth pair. Elijah approached and cast upon the oxen his mantle, which was the characteristic garb of the prophets. (Zech. 13:4; this was Elijah's call to the prophet's office. It is an interesting fact, by the way, that the insignia which graduates of certain colleges in England wear on appropriate occasions—the lambskin hood or cloak—can be traced back to the mantle of Elijah, which was the skin of some animal dressed with the hair left on. "I wish that his mantle might fall upon me," is an expression not infrequently heard from one who covets another's gifts or graces.

Elijah ran after Elijah and promised to follow him after he had said farewell to his father and mother. And Elijah said to him, "Go back again; for what have I done to thee?"

"Whatever sacrifice was involved in the prophetic call was to be made ungrudgingly. He was to leave out Lord would have no halfhearted service: Compare Luke 9:59-62."

The Call of the Prophet Amos, Amos 7:14, 15.—Then answered Amos: His consciousness of his divine commission urged him in the face of the threats and commands of the high priest Amaziah: see verses 16-17.

"I was a herdsman and a dresser of sycamore trees." Sycamore (trees) yield a white wood, which is used after being punctured and to do this was the humble and scantily remunerated task of a herdsman. He was not a member of a prophetic guild, he was an "inspired farmer" chosen by God to be His messenger to Israel.

"The faithful performance of the commonplace of daily life is the best preparation for any great demand that may suddenly break in upon our lives."—F. B. Meyer.

Value of Newspaper Advertising

Says Advertising Is Right Hand Of Business of Today

Merchant, advertiser and publisher, the modern triangle of business, united in a general discussion of problems at the continental general meeting of the Canadian Association of Advertising Agencies held in Montreal.

Joe Laporte, vice-president, and general manager of Laporte, Martin Ltd., in telling what the merchant thought of advertising, said advertising was the right hand of business and that "today a business has no right to be without its advertising agencies for the leading part they have taken in the development of newspaper advertising."

The Oil Of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its success is known to all who have tested its virtues and learned by experience.

Empire Christmas Pudding

Empire Marketing Board Sends Out a Recipe By the King's Chef

The King's Chef, M. Cedard, with Their Majesties' gracious consent, has supplied the Empire Marketing Board a recipe for an Empire Christmas Pudding. The following are the ingredients, together with the portion of the Empire from which they are obtained:

Five pounds currants, Australia; 5 lbs. sultanas, Australia; 5 lbs. stone raisins, South Africa; 1 1/2 lbs. mixed apples, Canada; 5 lbs. bread crumbs, United Kingdom; 5 lbs. beef suet, New Zealand; 2 lbs. cut candied peel, South Africa; 2 1/2 lbs. flour, United Kingdom; 2 1/2 lbs. demerara sugar, West Indies; 20 eggs, Irish Free State; 2 ozs. ground cinnamon, Ceylon; 1 1/2 ozs. ground cloves, Zanzibar; 1 1/2 ozs. ground nutmeg, Straits Settlements; 1 teaspoonful pudding spice, India; 1 egg brandy, Cyprus; 2 gills rum, Jamaica; 2 gills old brandy, England.

An verminous effective preparation for the treatment of Worm Extermination, and it can be given to the most delicate child without fear of injury to the constitution.

The Pope of Rome goes to confession every Friday. His confessor is Father Allard, a Jesuit.

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 60c. box.

Celebrated Eighty Birthday

British civil aviation having recently celebrated its eighty birthday, it took the trouble to dig up a few facts concerning the career of this hearty youngster, I won't bore you with too many figures, but it should be placed on record that during the past eight years British Air Services have flown approximately six million miles and have carried 90,000 passengers on regular services, while since August 1, 1924, over 50,000 passengers have crossed the Channel alone.—London Hystander.

Mothers Should Use

When The Babies Are Cutting Teeth

During the baby's teething time, in the hot summer months, the little becomes hot and diarrhoea, dysentery, colic, loose and other bowel complaints manifest themselves; the baby becomes restless, cankers form in the mouth, and in many cases the child wastes to shadow, and very often the termination is fatal.

This is the time when the mother should use "Dr. DeFowler's," and, perhaps, save the baby's life.

It has been on the market for the past 80 years and is sold only by J. Milburn Co., Limited, Toronto, Ont.

A rose that changes color, from pale yellow to yellow deeply splashed with red, according to whether it is cold or warm when the bud opens, was exhibited at a recent English flower show.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

A physician says that women seldom talk in their sleep. Of course they don't; the organ of speech must have an occasional rest.

Sore Throat

Spread on brown paper and apply on outside. Reduces swellings and eases pain.

BOYS & \$2.00 Given NO WORK GIRLS \$2.00 Given JUST FUN Simply sell the sets of Dr. Thomas' Electric Oil. Send 10c. for a set. When sold send 10c. to Dr. Thomas' Electric Oil Co., Dept. 629, W.N.U., Brooklyn, N.Y., U.S.A.

THE NEW FRENCH REMEDY, No. 1 THERAPION... Dr. Lacaze, 100, Rue de Valenciennes, Paris.

BENNETT CHOSEN NEW LEADER OF CONSERVATIVES

Hon. R. B. Bennett, K.C., Calgary, is the new leader of the Conservative Party in Canada.

On the second ballot, the national convention of the party accorded him two more votes than the necessary one-half of all votes cast.

Mr. Bennett, speaking with much emotion, acknowledged the election of his leadership.

"It was difficult, Mr. Bennett said, for him to find words with which to express his sentiments.

"I thank you for your more than generous support, which was wholly unmerited," he said.

Mr. Bennett recalled that men occasionally attended some great religious edifice for the purpose of re-echoing many things, and in order to be consecrated to a life of service. The feeling might be different about a meeting of this nature but Mr. Bennett felt that the delegates had endeavored to set him aside for a life of service to Canada.

Mr. Bennett declared he could think of no more appropriate reply than to quote from the Scripture: "Whosoever among you will be chief among you shall be servant of all."

"You have made me your leader for the time and please God that I may be your faithful servant," Mr. Bennett added, while cheers drowned the last of his remarks. He pleaded for the whole-hearted co-operation of the rank and file in the discharge of their duties and responsibilities as citizens of a great Dominion.

"If each of you must see to it that an educated democracy governs the destinies of Canada, if you have all become firm believers in Conservative policies, the party will act as an instrument for good in the development of our country and in the advancement of our national life."

Mr. Bennett stated that his election to the leadership involved his renunciation of many things he had held most dear in the past.

"These things I must now put behind me, for no man may serve two masters," Mr. Bennett said. "You have told me to dedicate my talents and qualifications I may have to the interests of the party which I will now be privileged to lead."

It was true, Mr. Bennett continued, that he was a man of considerable wealth, wealth accumulated through capitalized opportunities on the great Western plains. No man, he said, could serve satisfactorily with pecuniary obligations hovering over his head. In this respect, he said, he could serve his country better than Canada's future, the new leader declared, must be one of unlimited expansion and increased prestige among the nations of the world. There was a great opportunity for the Conservative Party to act as an instrument in bringing the right policies into being for the country. He emphasized the need of organizing the younger generation to which the present leaders could safely look to carry on the work of the party.

If effect were given to the Conservative policies sufficient industrial expansion would result to provide all our sons and daughters with employment within the borders of the Dominion.

"There must be no sacrifice of convictions; there must be no compromise of principles. Promise that you will be missionaries for your own party and your efforts will be crowned with success. You will then have a government that will reflect your aspirations, your ideas and hopes, in power in Ottawa," he said.

Japanese Volcano Erupted

Covered Countryside For Seventy Miles With White Ash

Tokio.—With a thunderous roar, Asama-Yama, active Japanese volcano, erupted recently, emitting an immense volume of thick black smoke and covering the countryside with a white ash.

Farmers at work in the fields were compelled to use umbrellas as a protection from the ashes which fell as far distant from the volcano as Utsunomiya, seventy miles to the east. (Asama-Yama is about 89 miles southwest of Tokio.)

Says Baffin Land Habitable For Whites

But Is Not Desirable Place Dr. Livingston Finds

Ottawa.—Baffin Island, although not as pleasant a place of residence for white men as more Southern latitudes, is nevertheless capable of sustaining a vigorous and contented native population. This is an essential point in the report of Dr. L. D. Livingston who has just returned from 15 months duty as medical officer in the Canadian Arctic Archipelago. Dr. Livingston who was a member of the staff of each annual expedition to the Canadian Arctic, from 1922 to 1926, examining the natives at the different points of call, remained in the North at the conclusion of the 1926 patrol and spent the winter of 1926-27, and the spring and summer of this year, in a detailed inspection of the natives in the interior whom it had not been possible to see on his previous annual visit.

The need of educating the Eskimos in wild life protection, in the practice of economy, and in methods of hygiene is strongly urged by Dr. Livingston. The habit of putting aside supplies of food and other necessities for seasons of scarcity and a knowledge of sanitation would greatly improve general conditions among the Eskimos of the Eastern Arctic.

Plans For Willingdon's Visit To Washington

Program Being Worked Out By Canadian Legation and State Department

Washington.—The tentative program of entertainment of Lord Willingdon and Lady Willingdon at Washington, December 18, is now being worked out by the Canadian Legation and state department. It will be the first visit a Canadian Governor General has made to Washington since that of the Duke of Connaught in war years, and the first time Canada's titular head has been entertained in Washington on Canadian territory.

His Excellency will exchange views with President Coolidge and members of the cabinet and will be given the usual recognition of a representative of royalty.

It is understood that the visit has no special purpose except to establish personal contact between the governor-general and heads of the U.S. government.

On previous occasions the Canadian Governor-General has been a guest at the British embassy. The difference on this occasion will be that he will be able to entertain officially at the Canadian Legation as the representative of Crown in Canada.

Needs Full Autonomy

Canada's Highest Destiny Rests With In British Commonwealth Says Borden

Winnipeg.—"I yield to no man in my assertion of the fullest autonomy for this great country as a nation within the British Commonwealth of nations," declared Sir Robert Borden, former Prime Minister of Canada, in addressing the Canadian Club here.

The highest destiny of this great Dominion, Sir Robert said, rests with the British Commonwealth.

The former Premier dealt with the influence of the early French settlement in Canada on the development of the Dominion as an integral part of the British Empire.

Winter Fair Dates

First Saskatchewan Show Will Be Held November 1

Regina.—Dates for the different sections of the Provincial Winter Fair were approved at a meeting of the board of directors of the Regina Exhibition Association, held under the chairmanship of President H. G. Smith.

The sheep and swine show, it was decided, will be held on November 1, 2 and 3; the dressed poultry show on December 7; live poultry exhibition, March 17, 18 and 19; and horse and cattle show, March 27-29.

The longest ocean wave ever measured was 675 feet.

Receives Diploma

Miss Dorothy Moore, daughter of Rev. T. Albert Moore, 113, and Mrs. Moore, 181 Geoffrey street, Toronto, has been awarded the diploma of the Royal Life Saving Society of London, England. She is physical director of the Calgary Y.V.C.A. and is the first to bring this coveted award to this city.

Premier Offers

Congratulations

Sends Wire To Hon. R. B. Bennett On His Appointment To Leadership

Ottawa.—Among the first to telegraph congratulations to Hon. R. B. Bennett, K.C., who was selected by the national convention to be leader of the Conservative Party, was the Right Hon. W. L. Mackenzie King, Prime Minister of Canada, and leader of the Liberal Government. The Prime Minister despatched the following wire to Mr. Bennett:

"I have just learned of your selection as leader of the Conservative Party of Canada, and desire to tender to you very hearty congratulations upon the confidence thus expressed in you by the members of your party, and on the distinguished honor which they have conferred upon you."

The telegram bears the Prime Minister's signature.

An Important Agenda

Ottawa.—The premiers of the provinces of Canada will face an imposing agenda of nearly forty items when they meet here on Nov. 3. The conference of the premiers promises to be the most important of its kind since Confederation, in view of the fact that several constitutional questions will come up for discussion and perhaps action.

While the conference has to have actual legislative or administrative authority, its conclusion will be far-reaching, as they will affect the legislative programmes of the future of the nine provincial governments during the next year.

Employees Can Buy Shares

Sir Alfred Moved To Try Out Co-Operation Plan

London.—Co-operation between employers and employees, which is not a new matter in the United States, is about to be tried out here by Sir Alfred Moat with 40,000 employees in his big Imperial Chemical Industries.

"Through his offer," the employees can buy Imperial Chemical shares, quoted at 30 shillings, for 27 shillings, six pence. The only restriction is that they do not speculate. He will award free shares to workers on the basis of a man earning £1,000 annually or less getting a free share for every four pounds. The workers can vote on their stock.

"That will create a direct bond between the company officials and workers," Sir Alfred said. "Industrial peace will not be gained by pleasant talk and nice dinner parties, but by actual contact between the men and employers working out practical schemes."

Arrange Exhibits For

Agricultural Jubilee

Every Branch Of Federal Department To Be Represented Says Motherwell

Ottawa.—Every branch of the Federal Department of Agriculture will be represented in the celebration of Canada's Agricultural Jubilee, Hon. W. M. Motherwell, Minister of Agriculture, announced, "and they are altogether aside from the provincial, educational and livestock displays which will be part and parcel of this presentation of the greatest of all of the Dominion's basic industries."

Alberta, which has had its banner crop year, has notified the minister that its exhibit will comprise grains from this year's yield, and that its display will be most comprehensive. Manitoba and Saskatchewan also will be represented.

The agricultural jubilee will be staged at the Royal Agricultural Winter Fair in Toronto from November 16 to 26.

Irish Free State

President Cosgrave Makes Few Changes In His Cabinet

Dublin.—President Cosgrave, re-elected as chief executive of the Irish Free State in the Dail Eireann, has made few changes in his ministry.

The changes that were made give Hon. Ernest Blythe, the postmaster-general as well as the portfolio of finance minister. Hon. Patrick McGilligan took over the internal affairs ministry in addition to his Ministry of Commerce while Hon. James Fitzgerald Kennedy became Minister of Justice.

After a four-hour debate on the whole government policy the Dail approved by a vote of 76 to 70, President Cosgrave's cabinet.

SEEKING LAND IN CANADA

This photograph, taken outside the Union Station, Winnipeg, is of a group of prominent United States farmers, who have been looking over settlement prospects in Saskatchewan, and some of whom have purchased land. They were brought to Canada in September by Capt. L. B. Boyd, superintendent of the land, colonization and development department of the Canadian National Railways at St. Paul, Minnesota, and were interested in the Eston, Tyner Valley and Ship

MOVE TO SPEED UP IMMIGRATION FROM BRITAIN

Winnipeg.—Adoption of a quota policy in Canada to restrict continental immigration was not regarded as feasible, Hon. Robert Forke, Minister of Immigration and Colonization, told a delegation of the general synod of the Anglican Church, which conferred with him here, but he gave his assurance that his department would do all it could to promote British immigration and to keep control over continental immigration.

The delegation consisted of Archbishop Matheson, the primate of all Canada; Chancellor, Macfarlane, Mr. Justice Denison, J. W. E. Armstrong, W. G. Styles, Regina; G. H. Woods, Lethbridge; H. Reid, Toronto; and Canon Vernon.

A statement issued said:

"Mr. Forke stated that the subject of immigration would occupy an important place on the agenda of the conference between the Dominion and provincial governments in November. "The minister expressed a desire to meet representatives of the churches and other voluntary organizations interested in immigration to confer with him at Ottawa with a view to full co-operation in securing an increased flow of British immigration to Canada. The minister pointed out the valuable assistance that can be rendered by the churches in developing nominations for British families for land settlement, farm workers and household workers, to reduce the existing passage rate. He mentioned that in the past year more than 5,000 Britishers have been thus nominated."

"Mr. Forke told the delegation that the assistance to be offered to enable British lads who make good in Canada as farm workers to take up land of their own will be applicable to boys placed out through the church of long established hostels at Winnipeg, Melfort and Edmonton. The department was doing everything possible to develop family settlement schemes along somewhat similar lines to the existing 5,000 family scheme."

"The Archbishop assured Mr. Forke that there had not been on the part of the synod any discussion or indication of attacking or embarrassing the government, nor were they actuated by any ill-feeling towards the Roman Catholic Church."

Trying To Reach Coast

Mexican Rebel Leaders Being Pursued By Federi Troops

Mexico City.—Pursued through the wild mountain country of western Vera Cruz, the rebel generals, Arnulfo Gomez and Hector Alameda, were believed to be attempting to reach the coast, where passage in a fishing boat or other small craft would take them beyond the reach of the government.

Not on their trails are scouting parties of federal troops under command of General Gonzales Escobar, who reported that he had dispersed the rebel forces and captured the main body, leaving Gomez and Alameda with only about 100 followers.

To guard against the activities of bandits attempting to take advantage of the situation, the government has ordered an adequate escort of federal soldiers for every freight and passenger train.

Infantile Paralysis Serum

Indianapolis, Ind.—Commercial production of a specific, said to be beneficial in the treatment of infantile paralysis, was announced here by the Eli Lilly Biological Laboratories, the concern which first produced the serum as a commercial product. The new serum has been developed in co-operation with Dr. Edward S. Ross, now head of the division of experimental bacteriology of the Mayo foundation, Rochester, Minn.

New Rural Mail Routes

Regina.—The necessary authority has been given by the post office department for the establishment of ten additional rural mail routes in the Saskatchewan postal division, according to John Chamard, district superintendent of postal service for this area. One of the new routes which will be known as Saskatoon R.R. No. 6, will go from Saskatoon to Flin Flou.

All Canada Agrees "It's Better because it's Canadian"

"It's Better because It's Canadian" . . . a year ago General Motors of Canada gave first utterance to this phrase.

"It's Better because It's Canadian" . . . newspapers and magazines all over Canada took up the theme, impressing on Canadian citizens the pride they should justly feel in the products of their country.

"It's Better because It's Canadian" . . . the phrase has struck home, has become a challenge to the Canadian manufacturer and to the Canadian buyer.

"It's Better because It's Canadian" . . . it is a fact. And because it is a fact . . . because General Motors was inspired to put it into words . . . because Canadian editors added to its impetus . . . because Canadians accepted it . . . and because the standard of Canadian quality proved it true.

. . . all Canada has enjoyed a greater measure of prosperity; and General Motors of Canada, with many other Canadian manufacturing organizations, has just completed the most successful year in its history.

SECOND TRAIN leaves Winnipeg 10 a.m. Nov. 24, to Quebec (direct via North Line) for sailing of SS. "Regina" Nov. 26, to Belfast, Liverpool, Glasgow.

THIRD TRAIN leaves Winnipeg 10 a.m. Dec. 2, to Halifax, for sailing of SS. "Antonia" Dec. 5, to Plymouth, Havre, London; SS. "Pennland" to Plymouth, Cherbourg, Antwerp; and SS. "Stockholm" to Gothenburg.

FOURTH TRAIN leaves Winnipeg 10 a.m. Dec. 8, to Halifax, for sailing of SS. "Athenia" Dec. 11 to Plymouth, Havre, London.

FIFTH TRAIN leaves Winnipeg 10 a.m. Dec. 9, to Halifax, for sailing of SS. "Ascania" Dec. 12, to Plymouth, Havre, London, and SS. "Baltic" Dec. 12, to Queenstown, Liverpool.

FOR THE SAILING OF

"Drottningholm" Nov. 28, Halifax to Gothenburg, "Polonia" Dec. 8, from Halifax to Copenhagen, Danzig, Helsingfors.

"Frederik VIII" Dec. 9, from Halifax to Christiansand, Oslo, Copenhagen.

There will be Thru Sleepers from Principal Cities.

Here and There

The total attendance at the Toronto Exhibition this year was 1,870,000, or an increase of 297,000 over 1924.

The Saint John Board of Harbor Commissioners is now busy working on plans for more adequate port facilities and estimating cost of new wharves, grain elevators and everything necessary to handle a larger flow of business.

The establishment of a "Faculty of Fisheries" at Dalhousie University at Halifax is under consideration. If this course is added to the curriculum, it will be the first time in the history of this continent that lectures on fisheries will have been delivered as a college course.

As a latest development of the Canada-West Indies treaty, ice cream is now being shipped from Halifax to British Guiana in liquid form and re-frozen at its destination. On the other hand, ice cream shipped to Bermuda is shipped in blocks and kept solid throughout the journey.

Application has been made to the Vancouver Board of Harbor Commissioners for the right to drill along the shore of Stanley Park and across First Narrows with a view to building a tunnel under the entrance to the harbor. The backers of the project estimate its cost at \$4,000,000.

A saving of forty-eight hours was effected in the transport of trans-Atlantic mail to the city when bundles were taken from the Canadian Pacific "Empress of Australia" at Rimouski and conveyed by plane to Montreal. Experiments are considered to have been successful, and it is understood a future development will extend the flying service to Toronto.

Though the crop season is late, reports received by the transportation department of the Canadian Pacific Railway are most satisfactory, insofar as yield per acre is concerned. From many points in Saskatchewan word comes that wheat threshed out from 25 to 35 bushels per acre, while in Alberta the yield runs from 25 to 45 bushels per acre.

F. W. Swindells, a wealthy Connecticut manufacturer, is developing a model farm at Princeport, on the Midland division of the Dominion Atlantic Railway, twelve miles from here. This farm contains 400 acres under cultivation and 50 acres of woodland, ideally situated on the summit of a hill overlooking the upper part of Cobequid Bay and valleys of exceeding beauty. His Guernsey herd consists of 50 purebred milk cows. His barns are on the Danish dairy plan and are said to be the best in the province.

It is announced that the 2,000,000-bushel elevator at Midland, Ontario, erected by James Playfair and his associates has been completed, and that the Canadian Pacific Railway is to proceed with the construction of seven miles of line directly connecting the elevator at Midland and joining up its main line through Fort McMurray to Montreal. The immediate result, it is believed, will be that the largest shipping point on the eastern lakes will have direct connection with Saint John, and have the effect of greatly increasing the traffic through that port.

The Domestic Animals Act (Municipalities)

Sale and Redemption of Impounded Animals (Sec. 48.)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that 1 Dark Bay Gelding, weight 960 pounds, star in face, brand AV on right shoulder; horse will do tricks; was impounded in the pound kept by James H. Coates, located on the SE 4-62-3-5, on Sunday, the 11th day of September, 1927, and that the said animal was sold on the 24th day of Sept. 1927, to Scott Bell of Duffield; and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of said animal. For information apply to the undersigned.

CHAPTER IX.—Continued.

The door of the common room opened quietly. The light was switched on, and Mrs. Wymuth in dishevelled night clothes stood blinking like an owl at the light. Helmi stood at the window facing her, unafraid and calm.

Mrs. Wymuth had a sudden plan. Helmi had come back to the scene—she was frightened—now was the time.

"I came the glass to pick up," said Helmi, in a whisper. "I hope he is not hurt bad."

"He is dead," said Mrs. Wymuth, in a voice as hollow as an empty church. "Oh, Helmi, you have killed him, killed him by your blow. He is lying now cold in death."

Dead! The room went past Helmi, table—chair—door. Dead! The word beat like a drum with every beat of her heart. Dead! Dead! Dead! Murda! Murda!

This red word danced before her eyes.

"Helmi, the police will come for you. I will have to send for them—I will have to tell them you struck him down. Listen, Helmi, tell the new who was it, sent you for the door? I'll save you, Helmi, even now, if you'll say the name."

Terror had frozen Helmi's blood. She knew how awful a thing it was to tell—people who kill are hanged! She looked and unlocked her hands.

"Just say the name, Helmi, and I'll save you—just the name."

For the moment Helmi could not remove her mind from the terrible present. Then she remembered, She

RUN-DOWN AFTER BIRTH OF BABY

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had been hurt. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and cannot praise it too highly, and asked me to try it. I have had splendid results and feel fine all the time now. Any one who needs a thorough pick-me-up soon learn from me what to do next."—Mrs. RIVER FAQUIN, 212 Cumberland Street, Ottawa, Ontario.

Terrible Backache

Hamilton, Ont.—"After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved about. I had to sit or lie down for a while afterwards. I could keep my house in order, but many things had to go undone at the time, because of my ailments. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would make me up. I was relieved before I had taken the first few bottles and have not had any trouble like it since."—Mrs. T. MARBLE, 60 Burton Street, Hamilton, Ontario.

One Crop Buys Farm
Remarkable Success of New Settler on Letbridge Irrigation Tract
Here is the report of the first new settler on the Letbridge Northern Irrigation tract to complete harvesting this year: Saunders Bros., of Iron Springs—purchased quarter section there last July paying \$1,894.80, one-third crop to go to Letbridge Northern as purchase price. Broke land in August. Seeded to spring wheat 140 acres. Harvest concluded, all wheat in elevator. Total crop 4,581 bushels. Grade No. 1. Offer for wheat today \$1.33 per bushel net to owner. L. N. share 1,500 bushels at \$1.33, total value \$1,995; which means the Letbridge Northern. If it sells the wheat today, will have to return \$105.20 to Saunders Bros., being the excess which one-third of the crop brought over purchase price of land. This crop was cut and harvested with a combine and the grain graded a perfect No. 1 direct from the machine.

wanted. I believe she'll keep her promise, she's that kind. If she doesn't it will be my word against hers, anyway, and she won't have much chance. But I'd hate it to come to that—I hate scenes. How could I tell there was going to be a raid that day? And I believe that Helmi is not such a 'bad place'—there's a teacher there—and maybe she won't mind it. Anyway, I can't help it. A girl as pretty as that couldn't forget her."

Users of the drug are not much troubled with doubts of conscience. Yet the thought persisted, nagging, nagging cutting in upon her gayest moments. She could not forget Helmi with her worshipping eyes and her blind, unreasoning adoration — she couldn't forget her.

Then Eva tried another way. She had always been able by taking thought to justify her actions. She now justified her silence by telling herself that if she had told and confessed that she had sent Helmi for the drug it would have injured her husband's practice, and probably broken his heart. She told herself over and over again that she owed her duty to him. He did so much for suffering humanity, eased so many people's pain, and did it so generously, that nothing must ever injure his husband.

Eva began to believe in her own wife's devotion. A woman's life should be submerged in her husband's anyway—she really had no life apart from him. She had been wrong to be so independent of dear old Humfrey—he was the safest port in a storm after all. An early Victorian spirit settled down upon her.

In her new-found enthusiasm Eva grew more thoughtful of the doctor's comfort and more interested in his work. The Doctor's "hurry" for her favor was quick to see the little attractions she was bestowing on him, and responded with the eagerness of a faithful dog. Eva, always analytical, and deeply interested in her own mental experiences, began to feel that the episode of Helmi was a providential thing, inasmuch as it was bringing her and her husband closer together, and under the stimulus of this belief she rebuked her efforts to please him. She went to church with him; she joined some of the women's societies. Eva was not unkind of the benefit she would receive socially from these affiliations. It pleased her, too, to find what a flutter of pleasure her coming made in the societies. Any way, it was good policy to make her social position as secure as possible, and if Helmi did accuse her, he would be easier.

Through all of Eva's plans there ran one cool purpose, yet she managed to keep her conscience clear as the noonday sun. She had mastered the art of self-deception.

Following out her plan to establish a blameless record and an inviolable social one, it occurred to Eva that it might be well for her to show an interest in the girls' Friendly Home. It would show to the young French-girl that treated her badly there was no room in her noble heart for resentment. She glowed with the thought. Having put her hand to the plow she would not turn back.

Miss Able was delighted when she heard that Mrs. St. John thought of going out to see the girls, and not only that but was going to give a tea for the Home. She reported this to Mrs. Wymuth the Sunday following, when paying her weekly visits to the

Minard's Liniment for Lumbago.
Ride in Luxury Car!
A "luxury car" has speeded a stricture of village school children in Avon, England. Parents of the pupils objected to a tumble-down vehicle used to convey the children to and from Newham School, four miles away. They kept their children at home. Finally, the Gloucestershire Education Committee provided a bus which is termed a "luxury car," and the children have gone back to school.

She (anxious to impress)—"I've put my run into cold storage." "It—'Cold storage! Ah, that's jolly good; never heard it called that before. My cuff links and watch are there, too."

Home. It was used by Mrs. Wymuth in her turn, not only to show the girls how grateful they should be for food, shelter, clothing, and the blessings of the gospel, but also for kind friends to think of them. Mrs. Wymuth's tongue dripped honey, when she made the announcement to the girls.
(To Be Continued.)

Had Thrilling Trip

Girl Member of Trader Crew Returns After Voyage to South Seas

A proposal of marriage from a cannibal chief in the New Hebrides and a score of other adventures in the South Seas were part of the story of a girl who returned to her home in New York after a runaway trip to sea.

The girl, Viola Irene Cooper, a member of a trader crew that included Malay, Arabs, Filipinos, Portuguese and French men, stood watch and ate shark fins as regularly as the most able-bodied seaman. In the realization of a dream inspired by reading the sea stories of Stevenson, Conrad and Melville.

Miss Cooper shipped from San Francisco with a friend, Jean Schoen. The girls had considerable difficulty getting jobs, but a kindly captain finally hired them and away they went on a cruise to the romantic lands they had long desired to see.

"We were treated courteously by every one we met," reports Miss Cooper. "I was only scared once, and that was by the cannibal chief. He plucked my arm and said 'You belong to me,' and I did not know whether he wanted to marry me or eat me. But we were good friends after that, and he presented me a copra island if I would send him a silk hat and a cutaway coat. I promised I would."

Little Helps For This Week

For we are saved by hope.—Romans viii. 24.

And do not fear to hope. Can poet's words be true?—The poet's heart is good indeed!

Each one smells the autumn's dying scent.

We know the primrose time will come again, but we must wait for it. Not more we hope, nor less we soothe our pain.

"We should hope for everything that is good," says the old poet Linus, because there is nothing which may not be hoped for, and nothing but what the gods are able to give us." Hope quickens all the still parts of life, and keeps the mind awake in her most remote and indolent hours. It gives habitual serenity and good humor; it is a kind of vital heat in the soul that cheers and gladdens her when she does not attend to it. It makes pain easy and labor pleasant.—Joseph Addison.

A Successful Rancher

French Countess Has Prosperous Plantation in Indo-China

Mme. Riviere is in Southern France. Her aristocratic has made a remarkable success of a rubber plantation and cattle farm in Indo-China. Recently she was decorated by the French Government with the Cross of the Legion of Honor. Her formidable task began twelve years ago alone in the virgin forest of the colony. Mme. Soucheur, unaided by any white companions, made her plantation one of the most prosperous in the country. Everything is under her sole supervision, from the model village, with its meeting house, to the villa for sick natives.

Smallest Portrait Disappears
Scotland Yard is seeking the world's tiniest portrait, which disappeared from an exhibition of the Royal Photographic Society. It is that of Niece, inventor of an early day photographic process. It requires enlarging 150,000 times to make a picture the size of a half dollar.

The Prefect of Police of Peking, China, has issued a decree forbidding short hair, short skirts and decollete gowns.

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic; or constipation; or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor. Always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's Castoria is worth its weight in gold!

EVERYBODY WELCOME!

Meeting at Telfordville.

A big mass meeting was held Friday night at Telfordville hall, called for the purpose of discussing the extension of the L. & N. W. Ry.

Premier Brownlee, Hon. Vernon Smith (Minister of Railways) and Mr. Breton, M. P. P., were present. Mr. Squance was chairman.

In his speech, the Premier explained that exactly the same situation which confronts the people of Telfordville and adjoining districts exists in three other places in the province. That it was not at present the intention of the Cabinet to consider any further railway extensions; and that the province has in the neighborhood of forty million dollars invested in its railways, and the interest on this amounts to a goodly sum.

Holborn U.F.A. will hold a dance at their hall on Friday, Oct. 28.

Accident Near Carvel.

On Friday evening last, as Mr. Thos. Morgan (inspector of lands for the Federal Government, with headquarters at Moosejaw) was returning from a motor trip thru Carvel district in his Whippet coupe, he had an accident, thru running into a young lad on horseback.

Mr. Morgan was rounding a curve in the road near the Nicol farm, and noticed a lad mounted coming toward him at a pretty good gait. On proceeding a little further he noticed another lad mounted, coming towards him on his side of the road, and the two boys appeared to be racing.

To avoid a collision, Mr. Morgan tried to turn his car off the road, and partly succeeded, but too late to avoid a collision.

The horse struck the car on the left side of the radiator, crushing this badly, and layed up between the cab and the fender. The car had the fender broken off and numerous other damages.

The boy don't remember where he went after leaving the horse; but as he was found in the cab following the breaking of the wind-shield, it is quite probable he came in that route. The horse had its leg broken, but its rider escaped with a slight scratch on his face.

The boys are Eddie and Elmer Lutz, sons of Mr. Hy Lutz.

Summerfield & Mayer were notified, went out and towed the car in to their garage in Stony.

Spruce Grove News.

Mrs. Paul Kulak is under the doctor's care this week.

R. Fitzpatrick, driver of the team which ran away last week, near Winterburn, following a collision with an auto, died Thursday, after lying unconscious for several days. At the inquest Saturday morning the coroner's jury brought in a verdict of "accidental death," and the driver of the auto, P. Schram, was exonerated from blame. The night before the accident Mr. Fitzpatrick had stayed with Mr. J. Q. Adams, just across from Holborn ferry. Fitz had a bunch of pet goats he had brought to the Adams farm, and was proceeding on his way the night of the accident with the two poles for skids to drag back on these a goat house he owned in Edmonton. Mr. Adams did not hear of his friend's death till Monday last.

Messrs. Butler and Ward, Whitecourt, were week-end visitors with Mr. and Mrs. H. Morrow.

On Sunday last Rev. R. B. Woodhouse, who was recently ordained in Edmonton, sang Holy Mass at St. Joseph church. At the end of the service Father Woodhouse gave his blessing to the large congregation which was present for the happy occasion. The pastor, Father Kernan, delivered an instructive and inspiring sermon on "The Priesthood." Following the service, the infant daughter of Mr. and Mrs. Henry Woodhouse was baptised.
